WILLIE MEDGELY REFUSES TO PART WITH TRIBES HILL.

NEW YORK FIGHTERS MEET PHILADELPHIA'S TO-NIGHT

THE New Yorker or the Quaker? In the usual twenty-four hour ring, in which so many questions of superiority have been settled, another will be answered to-night. The arena of the National A. C. of Philadelphia, wherein many excellent bouts have been held for the past year, will be the scene of representative gatherings of sporting men of the two big cities.

The "head-line" article will see Tommy Murphy, who is looked upon as a rightful bidder for Frankie Neil's bantam-weight championship title, in a "go" of six rounds' duration with Tommy Love, as clever and hard-hitting a little man as the Quaker City can boast of as a resident. Then George Hoey, another Harlequin, Johnny Burdick, from the same locality; Jack Lowery, from the lower east side; Jimmy Stone, the champion-weight of the Avonia A. C., and Patsy Broderick, another New Yorker, will make up the New York delegation of championship-pushers who will seek to bring home Quaker gold and new laurels. In charge of the lot will be Johnnie Oliver, of the New Polo A. A.

FRED TARAL'S RECORD.

Fred Taral, who is at present in this city, leads the list of winning jockeys for the year on Austrian tracks. He had 341 mounts, 98 winners and 53 losers. H. Lewis, another American boy, is second, with 312 mounts, 50 winners and 55 losers. F. Bonta, the Austrian rider, who led in 1903, stands third, with 289 mounts, 43 winners and 49 losers.

BASKETBALL AT POLO CLUB.

The Silent Five basketball team, which has yet to meet its first defeat this year, will play the first game of the season on Monday night at the Polo Club. GOLD HEELS WON'T START.

MEMPHIS, Tenn., Jan. 23.—The report that Gold Heels will start in the race for the \$50,000 World's Fair Handicap at St. Louis, Mo., on Monday, is a hoax. The horse, who is owned by P. P. Hayes, who is handling Gold Heels, says that the horse would not be a candidate because of entrance fee of \$50 and \$250 additional to start is too great an amount to pay for a horse that is not likely to start racing.

NEW ORLEANS ENTRIES.

NEW ORLEANS, Jan. 23.—The entries for Monday's races are as follows:

First Race—Six furlongs, selling.	Algonquin, 68

GANS' PUNCHES DIDN'T PHASE 'IRON MAN' GRIM

(Special to The Evening World.) BALTIMORE, Jan. 23.—Powerful left hooks and right swings such as have won for him the world's championship were handed out by Joe Gans to Joe Grim for ten rounds at the Eureka Club last night, and Grim, bleeding and mauled, made a jest of it.

It was an exhibition of the powers that make Joe Grim famous as the "human punching bag." He was the receiving end of one of the worst lacerations Gans ever handed an opponent, still he did not show any real sign of weakening. Not only did he stay and fight for the ten rounds, but he could have gone a much longer journey.

It was Gans' point to put him out in ten rounds, but the fight had made an agreement to forfeit \$100 for every round over six that Grim could stand

up and fight. For marvellous recuperative powers, insensibility to pain and physical hardihood Grim tops anything ever seen in this neck of the woods. Gans fought him furiously the entire distance and dealt out the best blows at his command. And they landed, too. They cut up Grim's lips, made his nose bleed and cut open his left eye until the blood flowed in a stream.

Gans hooked his famous left to the jaw, chopped his right to the jugular, smashed to the wind and sent blows crashing over Grim's kidneys, but all to no avail. There was never a time that Grim was wobbly in the legs or unsteady in the body, which are signs of a man about to be beaten down. He was, indeed, fighting as aggressively in his crude way in the tenth as he had been in the second round. He slipped to the floor twice and was once aided to his feet by Gans, but he did not go down once for the count.

'KID' MCCOY'S NOW A BANKRUPT

Norman Selby, better known as "Kid" McCoy, pugilist, athletic instructor and actor, who has the added distinction of having been twice married and twice divorced from the same woman, filed a voluntary petition in bankruptcy to-day in the United States District Court.

Selby gives his residence as No. 138 West Forty-eighth street and his occupation that of an "athletic instructor." His liabilities he estimates at \$5,246 and his assets as \$1,000. He is indebted to the United States District Court for \$1,000. He is also indebted to the United States District Court for \$1,000.

GRIFFO NO MATCH FOR J. GARDNER

(Special to The Evening World.) MARLBORO, Mass., Jan. 23.—Jimmy Coffey, of Lowell, got the decision over "Kid" Griffio, of Philadelphia, last night at the Marlboro Athletic Club. The men were booked to go fifteen rounds, but the bout lasted only four. Griffio was knocked to the floor nearly a dozen times during those periods. Gardner had it all his own way from the start, hitting Griffio when and where he chose. "Kid" Coffey, of New York, was expected to meet Gardner, but he did not show up.

PARDELLO MEETS COFFEY TO-NIGHT

Leo Pardello, the Italian wrestler, and Patsy Coffey, the heavy-weight of Westchester County, will meet under mixed style of wrestling rules at the Cryptic Theatre, Peekskill, to-night. Both men are well known in the ring. Pardello arrived from Baltimore yesterday and feels confident of winning notwithstanding the fact that Coffey is the power to select an assassin.

ANGUS SELLS OUT DETROIT CLUB

DETROIT, Jan. 23.—William H. Yawkey, who bought a half interest in the Detroit club of the American League a couple of months ago, is said to have bought the balance of S. F. Angus's holdings in the organization. Mr. Angus, it is said, has retired absolutely as a baseball magnate and will not take stock in any other organization.

BOSTON POLICE WOULD NOT LET BOXERS MEET

(Special to The Evening World.) BOSTON, Mass., Jan. 23.—Just a few minutes before the time set to begin the preliminary bouts at the regular fight meeting of the Lenox A. C. last night Capt. Westcott and a squad of police forced their way into the clubhouse, took possession of the ring and refused to allow the programme to be carried out. No arrests were made.

BASEBALL LEAGUES ARE ON VERGE OF NEW WAR

PEACE in baseball looks something like that peace which Russia and Japan are talking about now. As a matter of fact, it looks as though the baseball dove will not roost. The American and National leagues appear as bitter enemies as before they met to be friends at that conference in Cincinnati over a year ago.

And the cause of it all now is that opening date in New York. Nothing but consternation reigned among National Leaguers when the papers announced that Ban Johnson's folks would be in the city to play the ball in place of this city on April 14.

"Nothing of the kind," the National League men said. Ban Johnson has said nothing, for the reason that he is confined in his room in the Criterion Hotel. He, however, will meet Barney Dreyfuss and C. H. Ebbets, the schedule-makers of the National League, to-day and compare schedules with them.

The old leaguers say McGraw's boys must begin the season here before the Highlanders. If Johnson refuses to grant the demand, then the former will begin play on April 14 and conflict with the boys "on the hill."

There are those who assert that it is the purpose of the Nationals to conflict as much as possible with the new team in this city before the underground road begins running. It is figured that the Nationals can reap some sort of a benefit thereby and do some harm to the Highlanders.

"But if they do," say the adherents of the Americans, "the Nationals will find conflicts in those cities where the Americans are the stronger."

That doesn't sound much like peace, does it?

BASKETBALL IN JERSEY.

Another basketball game is on the tape for Jerseyites to-morrow. At Schuetzen Park, Union Hill, N. J., the Anchor Juniors, one of the best teams in the State, will meet the Meteor five, and the game promises to be warm. Both teams are very evenly matched and the performance of the junior set will give the game's enthusiasts a line on the work of the senior five, which will play at the park a week later. After the game the usual Sunday night dance, under the management of Peter J. Byrnes, will be given.

SOME REASONS GIVEN FOR LYNE'S RELEASE

LEXINGTON, Jan. 23.—The reason for Jockey Lucien Lyne being released by the Keenes from his two-year contract when it was but half completed is given by Foxhall Keene, Mr. Keene says that the boy was disobedient.

"Nothing of the kind," the National League men said. Ban Johnson has said nothing, for the reason that he is confined in his room in the Criterion Hotel. He, however, will meet Barney Dreyfuss and C. H. Ebbets, the schedule-makers of the National League, to-day and compare schedules with them.

SIMMS QUILTS FIGHTING.

MILWAUKEE, Wis., Jan. 23.—Art Simms, the Akron (O.) boxer, will never enter the arena again. Simms says that he is convinced that he could not stand any hard punishment on the body due to the broken rib he sustained in training with Gus Ruslin two years ago.

CRESCENTS WIN AT HOCKEY.

The New York A. C. hockey team suffered another defeat last night, being defeated by the champion Crescents after one of the most exciting games of the season at St. Nicholas Rink by a score of 2 to 0. Although beaten, the Mercury foot team surprised the crowd by its splendid defensive game.
